Committed to True Value

Obtain all your practice management needs through Matrix GPO's comprehensive service offerings.

01 | Matrix GPO Member Portfolio

The average hospital operating expenses have steadily increased by about 5.8% each year. As this number continues to climb and the number of annual hospital visits grows, it is imperative for physicians to be equipped with the tools they need to ensure their facilities are running efficiently. Matrix GPO recognizes this and works with our partners to provide its members with a wide array of practice management and professional services to help mitigate administrative burdens. We also leverage the combined purchasing power of our members to offer discounts on pharmaceuticals and medical supplies to help promote financial viability. Our strategic partnerships enable us to deliver the support you need to enhance patient care.

02 | Negotiated Savings and More

To help fulfill the scope of product requirements for each specialty, Matrix GPO has forged a network of pharmaceutical manufacturer relationships to provide contract acquisition pricing for the branded and generic drugs that are essential to your practice. As a member of Matrix GPO, a healthcare provider can access contracted pharmaceutical and bio-pharmaceutical products through the GPO's distributor partner, CuraScript SD.

From a financial perspective, Matrix GPO assists today's healthcare providers through:

- Extensive Pharmaceutical/Biopharmaceutical Contract Access
- Drug Purchasing & Supply Chain Monitoring
- Inventory Control & Management Solutions
- Customized Reporting Tools
- Practice Management Solutions

Matrix GPO is also uniquely positioned to partner with other national GPOs. When desired, Matrix GPO can supplement the existing product portfolio of a national GPO and strengthen overall product offering for their membership.
