Supporting the Viability and Sustainability of the Community-Based Practitioner

Matrix GPO is a group purchasing organization for strategic market segments.

01 | Matrix GPO Member Portfolio

Current estimates suggest that more than 40% of the world's population is living with a neurological condition. As these numbers continue to grow, it is critical for neurologists to have the support they need so that they can focus on their patients. Matrix GPO understands this and is designed to support the long-term viability of the community-based physician, including those specializing in neurology. The services provided through Matrix GPO offer its members a range of practice resources and access to competitive pricing across a broad portfolio of specialty pharmaceuticals.

02 | Negotiated Savings and More

Due to the scope of product requirements for each specialty, Matrix GPO has forged a network of pharmaceutical manufacturer relationships to provide contract acquisition pricing for the branded and generic drugs essential to your practice. As a member of Matrix GPO, healthcare providers can access

contracted pharmaceutical and bio-pharmaceutical products through the GPO's exclusive distributor, CuraScript SD.
