EXPANDING THE MATRIX GPO PORTFOLIO

Did You Know?

Matrix GPO has been helping our members maximize savings for over 22 years.

Broadening Our Portfolio to Bring More Member Options

01 | Growing Our Portfolio
Providing access to savings on the products your patients need drives us to continuously broaden our portfolio to better support you. As part of Matrix GPO's expanded portfolio, we are excited to bring ten new products from five manufacturers: **Genentech, Celltrion, J&J, Kedrion and Teva**. This not only creates additional opportunities for members to take advantage of contracted offerings, but also helps them maximize value through available rebate opportunities. By adding these products, Matrix GPO hopes to both strengthen the range of choices available to its members and provide more access to support their treatments.

02 | New Product Offerings
Matrix GPO has been building relationships with various manufacturers to bring savings and access to the medications your patients need. The November 2026 additions to the Matrix GPO portfolio include:

- **Gazyva** | Genentech
- **Osenvelt** | Celltrion
- **Stoboclo** | Celltrion
- **Omlyclo** | Celltrion
- **Steqeyma** | Celltrion
- **Zymfentra** | Celltrion
- **Vegzelma** | Celltrion
- **Imaavy** | J&J
- **Yimmugo** | Kedrion
- **Herzuma** | Teva

03 | Supporting Member Success
Your success starts with meeting your practice needs. Whether you're in oncology, rheumatology, or another specialty, Matrix GPO is dedicated to providing the savings and access you need. By continuing to build relationships with manufacturers and broaden contracted offerings, Matrix GPO gives members more options to meet their practice needs while maximizing the value of their membership.

With a growing portfolio and access to rebate opportunities, Matrix GPO remains focused on helping members make the most of their purchasing decisions and supporting their practices' continued success.

Each new addition to Matrix GPO's portfolio strengthens our commitment to bringing members greater choice and value.
