## Exceptional Services Made Affordable

*An efficient supply chain can improve practice profitability and sustainability*

### 01 | Supply Chain Optimization

Matrix GPO recognizes the importance of having a high-performing supply chain for both business efficiency and customer satisfaction. Due to this, we have forged strategic partnerships with businesses that specialize in supply chain optimization to help keep your practice operating smoothly. As a Matrix GPO member, you gain exclusive access to discounted pharmaceutical products and supplies in addition to supply chain services through our partners. We leverage the purchasing power of our collective 6,000+ members to offer practices top-quality products and services at affordable rates.

### 02 | Advisory Service

Obtaining a supply chain assessment is made simple through Matrix GPO's vendor partners. These evaluations can be utilized to identify critical areas within your practice that can be improved to streamline the supply chain process. The following services serve to keep your practice organized by monitoring current needs:

- Price discrepancy resolution to help ensure you are paying the correct price on all your transactions.

- Contract implementation assists in outlining a course of action for your office with custom portfolios.
- Item management oversees a master list of items for your practice to help maintain product flow.
- A streamlined online ordering system service can allow for budget control, integration of patient charges and accounts payable.

### 03 | Service Providers

Matrix GPO has engaged with a number of organizations and businesses to offer its members a variety of products and programs. These trade relationships are designed to afford Matrix GPO members with access to a diverse portfolio of services, including:
