Supplying the Services Needed to Succeed

Matrix GPO supports the needs of various specialties, including neurology practices.

01 | Matrix GPO Member Portfolio
With one in two Americans impacted by a neurological disease or disorder (migraines, neuropathy, etc.) in their daily life, providing the care patients need is vital to improving their health. But what support do the medical professionals and practices receive?

Matrix GPO is designed to provide that support. For neurology members, we provide access to a wide range of products as well as services offered through our partners so Matrix GPO neurology members can focus on the needs of their patients.
