

SUPPORTING MULTI-SPECIALTY PRACTICES

Did You Know?

Advantages of multi-specialty group practices include increased financial security and a better control of lifestyle.

Committed to True Value

Matrix GPO is designed with the intentional goal of supporting community-based physicians and specialized medical professionals.

01 | Matrix GPO Member Portfolio

Multi-specialty practices provide a wide range of specialties and therefore face unique challenges. Matrix GPO understands this and was designed to support the long-term viability of the community-based physician, including those group practices. The services provided through Matrix GPO afford its members a range of practice resources and access to competitive pricing across a broad portfolio of specialty pharmaceuticals.

02 | Negotiated Savings and More

Due to the scope of product requirements for each specialty, Matrix GPO has forged a network of pharmaceutical manufacturer relationships to provide contract acquisition pricing for the branded and generic drugs that are essential to your practice. As a member of Matrix GPO, healthcare providers can access contracted pharmaceutical and bio-pharmaceutical products through the GPO's exclusive distributor, CuraScript SD.

From a financial perspective, Matrix GPO assists today's healthcare providers through:

- Extensive Pharmaceutical/Biopharmaceutical Contract Access
- Drug Purchasing & Supply Chain Monitoring
- Inventory Control & Management Solutions
- Customized Reporting Tools
- Practice Management Solutions

Matrix GPO is also uniquely positioned to partner with other national GPOs. When desired, Matrix GPO can supplement the existing product portfolio of a national GPO and strengthen overall product offering for their membership.
