

PROVIDING AN OPTIMAL SUPPLY CHAIN

Did You Know?

Mastering supply chain management is vital for operational excellence and enhanced patient care.

Improving Efficiency through Customized Solutions

An efficient supply chain can improve practice profitability and sustainability.

01 | Supply Chain Optimization

Matrix GPO recognizes the importance of having a high-performing supply chain for business efficiency and customer satisfaction. Due to this, we have forged strategic partnerships with businesses specialized in supply chain optimization to help keep your practice operating smoothly. As a Matrix GPO member, you gain exclusive access to discounted pharmaceutical products, supplies and supply chain services through our partners. We leverage the purchasing power of our collective 8,300+ members to offer practices top-quality products and services at affordable rates.

02 | Advisory Service

Obtaining a supply chain assessment is made simple through Matrix GPO's vendor partners. These evaluations can identify critical areas within your practice that can be improved to streamline the supply chain process. The following services serve to keep your practice organized by monitoring current needs:

- Price discrepancy resolution to help ensure you are paying the correct price on all your transactions.

- Contract implementation assists in outlining a course of action for your office with custom portfolios.
- Item management oversees a master list of items for your practice to help maintain product flow.
- A streamlined online ordering system can allow for budget control. Integration of patient charges and accounts payable.

03 | Service Providers
