Matrix GPO provides each unique member savings without sacrificing value.

01 | Matrix GPO Member Portfolio

There is an estimated 209,000 physicians practicing primary care in the United States. Matrix GPO is structured to address the needs of community-based physicians, including those in primary care. The services provided through Matrix GPO afford its members a range of practice resources and access to competitive pricing across a broad portfolio of pharmaceuticals.

02 | Negotiated Savings and More

Due to the scope of product requirements for each specialty, Matrix GPO has forged a network of pharmaceutical manufacturer relationships to provide contract acquisition pricing for the branded and generic drugs that are essential to your practice. As a member of Matrix GPO, a healthcare provider can access contracted pharmaceutical and bio-pharmaceutical products through the GPO's distributor partner, CuraScript SD.
