01 | Matrix GPO Member Portfolio

Multi-specialty practices provide a wide range of specialties and therefore face unique challenges. Matrix GPO understands this and was designed to support the long-term viability of the community-based physician, including those group practices. The services provided through Matrix GPO afford its members a range of practice resources and access to competitive pricing across a broad portfolio of specialty pharmaceuticals.

02 | Negotiated Savings and More

Due to the scope of product requirements for each specialty, Matrix GPO has forged a network of pharmaceutical manufacturer relationships to provide contract acquisition pricing for the branded and generic drugs that are essential to your practice. As a member of Matrix GPO, healthcare providers can access contracted pharmaceutical and bio-pharmaceutical products through the GPO's exclusive distributor, CuraScript SD.
