

MATRIX GPO

A GPO FOR THE COMMUNITY-BASED PHYSICIAN

Did You Know?

Matrix GPO is structured to expressly address the unique needs of today's community-based physicians and specialized medical professionals.

Committed to True Value

Matrix GPO is a group purchasing organization for strategic market segments

01 | The Power of the GPO

A group purchasing organization (GPO) is an entity that helps healthcare providers realize savings and efficiencies by aggregating purchasing volume and using that leverage to negotiate discounts with manufacturers, distributors and other vendors.

Matrix GPO was designed with the intentional goal of supporting the long-term viability of the community-based physician, and the services provided through Matrix affords its members a range of practice resources and access to competitive pricing across a broad portfolio of specialty pharmaceuticals.

02 | Matrix GPO Member Benefits

Matrix GPO harnesses the purchasing strength of its members, collectively, to offer products and services that support the independent physicians and clinics that serve patients at the local and regional level.

Matrix GPO assists today's healthcare providers through:

- Extensive pharmaceutical and biopharmaceutical contract access
- Drug purchasing and supply chain monitoring
- Inventory control and management solutions
- Customized reporting tools
- Practice management services

03 | The Matrix GPO Advantage

In particular, GPO contract acquisition pricing for branded and generic drugs offers members significant savings opportunities through the Matrix GPO network of pharmaceutical manufacturer relationships.

Matrix GPO is also uniquely positioned to partner with other national group purchasing organizations. When desired, Matrix GPO can supplement the existing product portfolio of a national GPO and strengthen the overall product offering for their membership.

Matrix GPO has engaged with a number of organizations and businesses to offer its members a variety of products and programs. These trade relationships are designed to afford members with access to a diverse portfolio of Service Providers, with access to services such as telehealth and telemedicine, employee perks and discounts, inventory management and more.

Matrix GPO is a subsidiary of Express Scripts Holding Company and utilizes CuraScript SD as its exclusive provider of Specialty Distribution Services.
